Celebrating 30 Years of Legacy In Quality Education

It is indeed astonishing how quickly the time passes. It appears as if it was only yesterday when Lawrence and Mayo Public School, Kota came into being with a handful of students, in a limited space. Standing in sharp contrast with the scenario today, we have a conglomeration of students and teachers who have shown exemplary performance on this ever-onward journey in the pursuit of excellence in education.

PREFACE

On the auspicious occasion of the Pearl Anniversary of Lawrence and Mayo Public School, we proudly present this special edition of The L.A.M.P.S Chronicle. As we celebrate three decades of excellence, this magazine reflects on our journey, traditions, and aspirations, offering a glimpse into the enduring spirit that defines our institution.

Beginning with "A Glimpse of Our Alma Mater," we honor the foundation that has shaped countless young minds, guided by the wisdom of our leaders in "Words of Wisdom" and "Visionary Insights." Our staff, "The Pillars of LAMPS," have always been the guiding force behind the remarkable "Scholarly Triumphs" and "Crowning Achievements" of our students.

The creativity and vibrancy of school life come alive in "Celebrating Traditions" and "The Creative Lens," showcasing our students' talents and the events that unite us. Our commitment to nurturing compassionate leaders is evident in "Hearts in Service" and "Healthy Horizons," reflecting our holistic approach to education.

We also bring you reflections from alumni, inspiring student voices, and wisdom from our teachers, while"Alumni Reflections" and "In Their Own Words" capture experiences that resonate across generations. This milestone edition not only looks back at our legacy but also looks ahead, celebrating the values and vision that continue to guide us.

As we commemorate this significant 30th year milestone, we invite you to explore these pages, relive cherished memories, and embrace the spirit of LAMPS that will forever shine bright. Here's to the journey so far and the promise of the future.

OUR BELIEF

A student does not have to be a genius to come here or wealthy or a star athlete. In fact, we make students realize their hidden potential, inherent talents and assist them to reach for their goals.

WORDS OF WISDOM

'Education is the most powerful weapon which you can use to change the world.'

Nelson Mandela

As Lawrence And Mayo Public School celebrates its Pearl Anniversary, this quote resonates deeply with our mission and vision. Over the past three decades, our institution has strived to equip students with the tools to face the world, promoting not just academic excellence but also nurturing creativity, integrity, and character.

In a rapidly changing world, it is more important than ever to guide our students in thinking critically and innovatively, as Margaret Mead rightly put it, "Children must be taught how to think, not what to think." At Lawrence And Mayo Public School, we have remained committed to this ideal, encouraging our students to grow into confident, compassionate individuals prepared for the challenges of tomorrow.

This year, in celebration of our Pearl Anniversary, we are proud to present a special edition of our school magazine. It serves as a tribute to the creativity, talent, and hard work of our students and staff, showcasing their remarkable achievements. More importantly, it is our way of thanking the parents, stakeholders, and well-wishers who have stood by us throughout these years. Your unwavering support has been the foundation of our success, and for that, we are deeply grateful.

I would also like to extend my appreciation to the dedicated editorial board and all those involved in bringing this edition to life. Their collaborative spirit and passion have ensured that this magazine truly reflects the spirit of our school.

Together, let us continue to strive for excellence and shape a brighter future for the next generation. Thank you once again for being a part of this remarkable journey

With warm regards,
Er. Pradeep Singh Gour
Principal

MESSAGE FROM PATRON

It gives me immense pleasure to pen down a message for the pearl anniversary school magazine. As a patron of Lawrence and Mayo Public School, I am filled with pride witnessing the remarkable strides our institution has taken in shaping young minds into bright future leaders.

Our school stands as a beacon of excellence, built on the pillars of hard work, dedication, and an unwavering commitment to quality education. It is my vision that every student of this school not only excels academically but also embodies strong values, resilience, and a sense of purpose.

I have great expectations from our students, who will carry forward the legacy of this institution as torchbearers of change and progress. It is truly heartwarming to see my son and grandson actively contributing to the school's journey, upholding the same principles and passion that define our family's bond with this institution.

Let us continue to strive for greatness, fostering a culture of innovation, compassion, and lifelong learning. Together, we will ensure that Lawrence and Mayo Public School remains a place where dreams are nurtured, leaders are born, and the future is shaped.

Wishing everyone a wonderful year ahead.

Warm regards,
K.G. Singh
Patron
Lawrence and Mayo Public School, Kota

VISIONARY INSIGHTS

Dear Stakeholders

Namaskar !

The school management is overwhelmed and indebted with the love, support and trust which it has been receiving from the last 30 years from all its stakeholders. We feel humbled and honoured to have not only successfully completed three decades in the field of education but as a team we have been leaders in providing quality education since 1994.

This Pearl anniversary is a testament to the dedication, passion and resilience of the entire school. The Journey of the School has been marked by commitment to academic excellence, personal growth and moral values. Our students along with a dedicated team and staff members have been constantly overcoming the challenges by showing their true potential.

Lawrence and Mayo public School has marked it's presence at the extensive levels. We have been committed to nurture the young minds and shaping future leaders. Your contributions have made us who we are today and we take pride in our distinguished alumni who have achieved remarkable heights. We are proud to share that school has produced galaxy of stars who have outshined in their career as Engineers, Doctors, CA, Lawyers, IAS/IPS officers, Defense Personal, Journalists, Bloggers, Influencers, Reporters, Writers, etc. There is a plethora of remarkable journeys which began in the kindergarten wing of school and have been transformed over the year by the team effort which provides utmost satisfaction to us.

We have been and will be a symbol of success, patience and achievements in every sector in the coming years. Let us continue to push the boundaries of education innovation to shape a bright generation and continue to strive for excellence because learning never stops. Lastly, I personally would thank our team of nation builders who have been working selflessly in order to nurture our students and shape the future of our nation. We salute them for their hard-work, patience & dedication which helped us to accomplish such greater heights.

As profoundly quoted

"One book, one pen, one child, and one teacher can change the world."
- Malala Yousafzai

Warm regards
Er. Bhuvan Singh Gour
Director
Lawrence And Mayo Public School,Kota

GUIDING LIGHT

"Dear Students, Teachers, and Staff,

As we continue on our journey of academic excellence, I am filled with pride and gratitude. Our school community has shown remarkable resilience, adaptability, and dedication.

Dear students, I urge you to embrace challenges, explore your passions, and develop your unique talents. Your creativity, curiosity, and enthusiasm are the driving forces behind our school's success.

To our teachers and staff, I express my deepest appreciation for your tireless efforts. Your commitment to providing a supportive and inclusive environment has created a haven for our students to grow.

As we move forward, let us remain committed to our core values: empathy, integrity, and excellence. Let us continue to foster a culture of innovation, critical thinking, and collaboration.

I am honoured to be a part of this vibrant community. Together, we will achieve greatness.

Thank you for your hard work, dedication, and unwavering support.

Best regards,
Madhu Ranawat
Vice Principal

Behind every successful institution lies a team of passionate individuals who dedicate their lives in shaping the future. At Lawrence and Mayo Public School, our staff stands as a shining example of commitment, expertise, and compassion.

Our educators are more than just teachers; they are mentors, guides, and role models. Highly qualified and experienced, they bring a wealth of knowledge and innovative methods to the classroom, ensuring that each student receives the best possible education. Their ability to adapt to changing times while maintaining the essence of traditional teaching values is truly commendable.

What sets our staff apart is their unwavering dedication to the school and its students. They treat the institution as their second home, fostering a nurturing environment where every child feels valued and supported. Beyond academics, they instill in students the virtues of discipline, resilience, and kindness, preparing them to excel not only in studies but also in life.

It is their hard work and sincerity that have established Lawrence and Mayo Public School as a place of excellence. Our staff's relentless efforts to create a holistic and enriching experience ensure that the school remains a beacon of hope and a temple of learning for generations to come.

We take immense pride in our dedicated team and express our heartfelt gratitude for their invaluable contributions. Together, we will continue to soar to greater heights, fulfilling the school's mission of nurturing leaders of tomorrow.

Scholarly Triumphs

Students have excelled in both the CBSE 10th and 12th exams with many of them securing positions and distinctions in almost all subjects. The school's commitment to quality teaching, along with its experienced faculty and advanced learning facilities, has been instrumental in these accomplishment. Apart board exams, students have also outperformed in competitive exams like NTSE, KVPY, and various Olympiads, earning accolades at both state and national levels.

LUMINARIES LAWRENITES

Kindness Rewards

We all know that kindness is a unique characteristic of showing love and care for others selflessly. It is an act of making others happy without any specific reason. This helps in maintaining a long lasting relationship based on honesty and loyalty.

Once upon a time , there was a farmer who lived in a village. He always helped everyone in times of hardship. Once the farmer needed some money for ploughing his field. He was not getting loan, as he was poor. Next day, one rich man who was living in that village, whom farmer helped when he was in trouble , came to know about the condition of farmer, he reached the farmer's house with some money to help him. He was delighted at the rich man's kindness. With that money he started cultivation in his field and after six months got a large amount of crops. After selling grains he went to rich man to return the lauded money and thanked him for his kindness and his help in need.

MORAL : *Kindness always rewards*

In Their Own Words
My school experience : A memoir

Studying at Lawrence and Mayo has been an exciting and memorable journey. From the very first day when I stepped into school, I was welcomed by a warm and serene environment.

But eventually I started crying at that day just because everything was new for me. And the most sorrowful thing for me was that I left my previous school and missed my old friends. At that time the teachers were the one who built such a character in me that I was feeling so motivated and energetic the very next day and made strong bonds with everybody and soon became comfortable in my school. Lawrence and Mayo isn't just a place where I gained knowledge, it's a place where I was taught perseverance, teamwork and creativity. My school has given me several opportunities to be the part of every single co- curricular activity till date and also gave me numerous chances to represent my school.One of the most important milestones of my journey was writing my own book 'THE UNVEILING SECRETS'. I can proudly say that it was all because of the encouragement, values and skills that I learnt and was able to turn my passion for writing into reality.The entire journey till date is full of adventures and I'm sure that these experiences will definitely shape my future.

Short Review On Three Idiots

Three Idiots, directed by Rajkumar Hirani, is a relatable and inspiring film that addresses the pressures of the Indian education system. Starring Aamir Khan, R. Madhavan, and Sharman Joshi, it follows three engineering students who navigate the challenges of academia while exploring their passions and friendships.

As a student, I found Rancho's (Aamir Khan) philosophy—"pursue excellence, and success will follow"—empowering. The film critiques the obsession with grades and societal expectations, encouraging us to prioritize understanding and creativity over rote learning. The humour, particularly through the strict principal Viru Sahastrabuddhe (Boman Irani), highlights the absurdities of a competitive environment, providing comic relief while addressing serious issues like mental health.

The music, especially "Give Me S

ome Sunshine," resonates deeply, reminding us of our dreams and the pressure we face. Overall, Three Idiots is a heartfelt reminder that education should be about nurturing individuality and passion, making it a must-watch for all students.

"Black Holes" in Space

The heavy densely packed dying stars that speckle space may help determine how matter behaves when enclosed in its own gravitational field-By Ann Ewing

What is BLACK HOLE

"A black hole is a great amount of matter packed in a very small area. It is a place in space which has such a big gravitational field, that nothing.not even light can escape. scientists can't directly observe black holes, and the only way to percieve them is by detecting their effect on other matter nearby."

Black holes are the evolutionary endpoints of stars at least 10 to 15 times as massive as the Sun

How Do Black Holes Form?

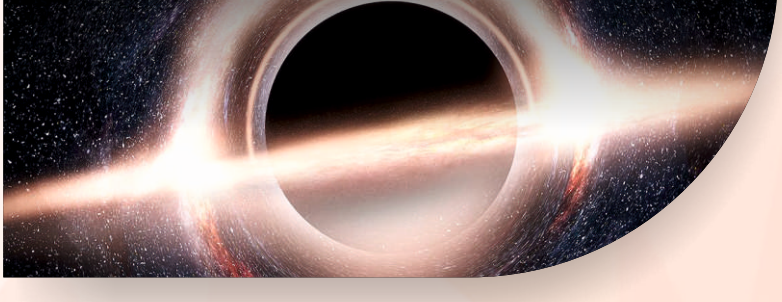

Scientists think the smallest black holes formed when the universe began.

Stellar black holes are made when the center of a very big star falls in upon itself, or collapses. When this happens, it causes a supernova. A supernova is an exploding star that blasts part of the star into space.

Scientists think super massive black holes were made at the same time as the galaxy they are in.

War! War! War!

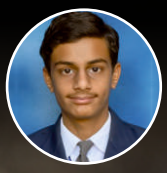

War! War! War!
See, it's a war,
Not of hearts but of swords,
Not for bodies, but for earth.
Innocent lives lost to ambition,
Or battles fought in God's name,
Fueled by revenge, leaving only blame.

War! War! War!
After war, all that's left is sorrow,
Government offers compensation,
But could they have tried negotiation?
Politics comes to play, counting losses,
Realizing too late what war truly costs.

War! War! War!
It divides, ruins, and kills,
Its impact lingers still,
Building tombs for those
Who will never return.

War! War! War!
Please stop it,
We are fed up with it.

War! War! War!
Say no to war!

Interview with the best swimmer of our school KUMKUM JANGID, known as the "Jalpari of LAMPS,"

KUMKUM JANGID
VII C

1. 'आपको ''Lamps की जलपरी'' के नाम से जाना जाता है। ये नाम आपको कैसे मिला और आपको कैसा महसूस होता है जब लोग आपको इस नाम से बुलाते हैं?'

– बहुत अच्छा लगता है जब मुझे अपने 'विद्यालय की जलपरी' जैसे उपनाम से बुलाया जाता है तो स्वयं को गौरान्वित अनुभव करती हूँ। यह नाम कैसे मिला यह तो पता नहीं परंतु जब पहली बार मुझे तैराकी के लिए सम्मानित किया गया तो सभी मुझे जलपरी के नाम से पुकारने लगे और शायद तभी से यह उपनाम प्राप्त हुआ।

2. 'आपने तैराकी की शुरुआत कब और कैसे की थी? इस खेल के प्रति आपकी रुचि कैसे जगी ?'

– मैंने तैराकी की शुरुआत सन् 2022 में की थी जब मैने पहली बार तैराकी सीखी। इस खेल के प्रति मेरी रुचि उत्पन्न करने का श्रेय मेरे विद्यालय एवं मेरे पिताजी को जाता है, जो स्वयं राष्ट्रीय स्तर के तैराक रह चुके हैं और उन्हीं के प्रोत्साहन से मुझे तैराकी करने मे रुचि जाग्रत हुई।

3. 'इस सफ़र में अब तक सबसे चुनौतीपूर्ण पल कौन–सा रहा और आपने उसे कैसे पार किया ?'

– सन् 2024 में जिला स्तरीय तैराकी प्रतियोगिता का क्षण मेरे जीवन में चुनौती पूर्ण था क्योंकि जब मैंने वहाँ दूसरे तैराकों को देखा जो कि बहुत सालों से सीख रहे थे उन्हें देखकर मैं थोड़ा निराश हुई परंतु मुझे अपने अभ्यास पर पूर्ण विश्वास था, और मैंने उस क्षण बस तरण ताल को देखा तथा स्वयं से कहा कि मैं यह कर सकती हूँ और मैंने अपनी पूरी शक्ति के साथ 200 मीटर फ्री स्टाइल में अन्य तैराकों को हराकर स्वर्ण पदक प्राप्त किया।

4. 'क्या आप अपनी तैराकी की तकनीक को बेहतर बनाने के लिए कोई विशेष दिनचर्या या ट्रेनिंग करती हैं?'

– किसी भी खिलाड़ी के लिए नियमित दिनचर्या का होना अति आवश्यक होता है। मेरे लिए भी व्यायाम, संतुलित भोजन, अनुशासन और अभ्यास बहुत ज़रूरी है अवकाश के समय में भी मैं अपनी दिनचर्या को संतुलित बनाने का प्रयास करती हूँ। विद्यालय में मैं सुबह जल्दी जाकर योग व व्यायाम करती हूँ।

To the Editor From the Heart
Subject: Appreciation of School Policies and Suggestions for Improvement

Dear Editor,

I, Sanchi Tirthani from class 11th commerce, would like to commend our school for its progressive policies while suggesting a few ideas for further improvement.

I greatly appreciate the bagless Saturdays, which allow students to engage in creative, hands-on activities, reducing academic pressure and fostering practical skills. The school's focus on co-curricular activities, such as debates, quizzes, and poem recitations, is also commendable as these events help develop communication skills, confidence, and critical thinking.

Additionally, the career counseling sessions and motivational seminars provide valuable guidance on future paths and keep students motivated. The emphasis on sports helps maintain a healthy balance between academics and physical fitness, teaching teamwork and discipline. Moreover, the school's effort to give every student a fair chance to participate in various activities helps build confidence and prepares them for future opportunities.

To further enhance these policies, I suggest introducing technical skill workshops on coding and robotics to better prepare students for the evolving job market. A peer mentorship program could also be implemented, allowing senior students to guide juniors, fostering community and shared learning.

Overall, the current policies are excellent, and with the addition of new initiatives, the school can continue to nurture well-rounded students.

Sincerely,
Sanchi Tirthani

MY SCHOOL

Where education meets inspirational fun,
My school is where dreams have just begun.
I learn and grow with every pace,
With friends and teachers in a happy space.

Our teachers guide us with patience and care,
Their hard work and dedication beyond compare.
The sports field, a place to play,
Where teamwork and spirit find their way.

The music room, where melodies are found,
Rhythms and harmonies all around.
In the world of dance, we find our home,
Where movements become their rightful song.

In classrooms, the energy is high,
Where our imaginations fly,
Where minds soar and hearts explore—
My school is where I ask for more.

THE QUEEN SHE WAS

She was numb,She was crying,
she was broken,she was dying,
she didn't knew what her life choose to do,
But she knew she didn't deserve it too.....

The sky is crying her tears,
The clouds are screaming her pain,

she's broken and she's done,
she've been through it all at once...

the queen she was is now crying in a corner,
The queen she was, is now breaking like a mirror,
The warrior she was, is now hiding from thunder,
The rebellion she was, is now avoiding discussions,
The artist she was, have now forgotten her colours,
Her life have turned colourless and her dreams keep scaring her...

She was never treated in the way she should have been,
She was the Queen, and she was meant to reign...

Cancer (Jun 21 - Jul 22)
Feeling extra sentimental? It's okay if that movie makes you tear up!

Leo (Jul 23 - Aug 22)
You're the star, Leo! Just remember to share the spotlight occasionally.

Virgo (Aug 23 - Sep 22)
Organization mode: ON. Don't forget to take a break from your planner.

Libra (Sep 23 - Oct 22)
Social butterfly, much? It's okay to say "no" to a few events.

Scorpio (Oct 23 - Nov 21)
Mysterious vibes all around. What secrets are you keeping, Scorpio?

Sagittarius (Nov 22 - Dec 21)
Your adventurous spirit is contagious! Plan that epic weekend outing.

Capricorn (Dec 22 - Jan 19)
Super focused, as usual. Just remember to mix in some fun with the hard work.

Aquarius (Jan 20 - Feb 18)
Your quirky ideas are sparking curiosity. Keep surprising everyone!

Pisces (Feb 19 - Mar 20)
Daydreaming again, Pisces? Just make sure you're awake class!

VOICES OF THE FUTURE

Survey Results:
Future Job Opportunities
* Participants:* students of 9th to 12th

1. What career fields are you most interested in pursuing ?

Science & Technology: 40%
Business & Finance: 25%
Arts & Design: 15%
Healthcare: 10%
Education: 5%
Other: 5%

2. How confident are you about finding a job in your chosen field after graduation?

Very Confident: 30%
Somewhat Confident: 50%
Not Confident: 20%

3. What factors do you believe are most important for job readiness?

*Practical Experience (Internships/Projects): * 45%
Educational Qualifications: 30%
Networking Opportunities: 15%
Soft Skills (Communication, Teamwork): 10%

4. What resources would you like the school to provide to help with career planning?

Career Counseling Services: 35%
Workshops on Resume Writing/Interview Skills: 30%
Internship Opportunities: 25%
Guest Lectures from Professionals: 10%

5. How important do you think it is to have a mentor in your desired career field ?

Very Important: 60%
Somewhat Important: 25%
Not Important: 15%

School-Time Jokes

1. Why did the student bring a ruler to bed ?
To measure how long he slept!

2. Why did the student sit on the clock ?
Because he wanted to be on time!

3. What do you call a student who's always in trouble ?
A "class" clown!

4. Why did the student bring a backpack to the party ?
Because he heard it would be a "backpack" party!

5. What did the student say when he saw his grades ?
"I guess I'll have to study for my 'C's!"

6. Why was the student's report card wet ?
Because it was below C-level!

7. What do you get when a student studies on an empty stomach ?
A hungry mind!

8. Why did the student take a pencil to the gym ?
To work on his "write" hook!

9. What do you call a group of musical students ?
A "band" of scholars!

10. Why did the student go to school with a ladder ?
Because he wanted to go to high school!

Young Minds, Bright Futures

We are the students, young and bold,
With dreams and aspirations, yet to be told.
Our minds are curious, our hearts are bright,
We shine with potential, like stars in the night.

We learn, we grow, we explore and we seek,
Knowledge and wisdom, to make our futures unique.
We face challenges, we overcome fears,
And with each step forward, our confidence clears.

We are the leaders, the innovators, the change,
The future of tomorrow, with hearts that range.
From science to art, from math to language too,
We're discovering our passions, and all we can do.

So here's to the students, with spirits so bright,
May our education, be a guiding light.
May we learn, grow, and thrive with each new day,
And make our mark on the world, in a positive way.

MANNUSHREE BHATNAGAR

Future Minds

कहानी सच्चा दोस्त

एक शहर में नेहा नाम की लड़की रहती थी। वह 10–12 वर्ष की थी। उसकी कक्षा में उसका कोई भी मित्र नहीं था। वह हमेशा सोचती रहती थी कि काश मेरा भी कोई सच्चा मित्र होता तो मैं भी उसके साथ गृहकार्य करती, खेलती, खूब सारी बातें भी करती। एक दिन की बात है, जब वह खिड़की के पास खड़े होकर यह सोच रही थी, तो उसके पिताजी ने उसे पुकारते हुए कहा, ''बेटा, बहुत देर हो गई है सो जाओ, फिर तुम्हें कल स्कूल भी तो जाना है ना !'' नेहा सोने चली गई। वह वापस मित्र के बारे में सोचने लगी। उसे नींद आ गई। उसने स्वप्न में देखा कि उसके साथ एक मित्र है और वह उसके साथ खेल रही है, गृहकार्य भी एक साथ कर रहे हैं और बहुत सारी मस्ती भी कर रहे हैं। सुबह हुई। पिताजी उसे उठाने कमरे में गए, नेहा उठी तो उसने पिताजी से कहा, ''आज मैंने स्वप्न देखा जिसमें मैं मेरे मित्र के साथ खेल रही हूँ। हम गृहकार्य भी एक साथ कर रहे हैं और बहुत सारी मस्ती भी कर रहे थे।'' पिताजी ने नेहा से कहा, बेटा ! जब भी तुम मित्र बनाओगी तो उसकी अच्छी परख करना कि वह तुम्हारे साथ कैसा व्यवहार करता है ? क्या वह सच्चा मित्र है या नहीं ?'' नेहा ने पूछा, ''पर पिताजी क्यों ? '' पिताजी ने कहा . '' बेटा ! किसी जंगली जानवर की अपेक्षा एक कपटी और दुष्ट मित्र से अधिक डरना चाहिए। क्योंकि जानवर तो बस आपके शरीर को नुकसान पहुँचा सकता है पर एक बुरा मित्र आपकी बुद्धि को नुकसान पहुँचा सकता है। इसलिए बेटा सच्चा मित्र कभी धोखा नहीं देता है और दुष्ट मित्र कभी भी आपको नुकसान पहुँचा सकता है। '' नेहा ने पूछा, ''पिताजी क्या आप मुझे सच्चे मित्र की विशेषताएँ बता सकते हैं?'' ''हाँ, क्यों नहीं।'' पिताजी ने नेहा को संबोधित करते हुए कहा, '' बेटा! सच्चा मित्र वह है जो –

1. आपकी गलतियों को समय पर बताएँ।
2. मुश्किल के समय में आपकी आर्थिक एवं भावनात्मक रूप से मदद करें।
3. आपको अच्छे कार्यों के लिए प्रेरित करें।
4. सभी के सामने आपके गुणों की प्रशंसा करें।
5. बुरे समय में आपका साथ नहीं छोड़े।''

आयुषी गुप्ता
कक्षा – नवीं

HOPE

Hope is like a ray in the dark
The ignite of fire with a spark
Hope is something with wings
Which helps you fly high with swings
Hope is a flower which blooms in abyss
Whose fragrance fills up your soul with bliss
Hope is something which is fearless
Which encourages you when you feel helpless
Hope is your inner voice that says
One more step and you will pass this maze
Hope is something which keeps you going
In times when you feel you are losing
Hope is a passion for what is possible
An unturned page into something unfeasible
Hope is listening to the melody of the future
It's like imagining your victory's cherish picture
Hope is a faith that tomorrow is better
So trust yourself and don't let your aspiration shatter
Hope is a belief in staying alive
To see the beauty of the future's paradise
So hope till your last breath
Because you never know your depth

Celebrating TRADITIONS

MAYOTSAV: School's Cultural Fest
A Grand Celebration of Talent and Tradition

The Annual Function of Lawrence and Mayo Public School, Mayotsav, brings together the entire school community to celebrate creativity, discipline, and the spirit of togetherness. Held on a grand platform, Mayotsav serves as an opportunity for students to showcase their exceptional talents in various artistic forms, including dance, music, and drama. The event is a vibrant display of their hard work and passion, as they perform mesmerizing dances and powerful music, capturing the essence of their dedication and skill.

This year's Mayotsav also features a captivating drama, leaving the audience spellbound with its flawless performances and thought-provoking storyline. Adding to the excitement, live music performances create an electrifying atmosphere, bringing the stage to life and highlighting the diverse musical talents of our students.

The event continues with the much-anticipated prize distribution ceremony, where students' achievements are celebrated and honored. It is a proud moment for the school as students are recognized for their academic excellence, sporting accomplishments, and extracurricular triumphs.

The NCC, Scouts, and Guides present a flawless drill that demonstrates discipline, precision, and teamwork, showcasing their commitment to these valuable programs. Following this, the impressive march-past by the Student Council displays unity and leadership, leaving the audience in awe of their coordinated efforts.

A distinguished and renowned guest graces the event, addressing the gathering and inspiring students to continue striving for excellence in all aspects of life. Mayotsav concludes with an address by The Director and Principal, who express pride in the achievements of the students and reaffirm the school's commitment to fostering a nurturing environment for academic and personal growth.

Mayotsav is a celebration of talent, unity, and achievement, encapsulating the essence of Lawrence and Mayo Public School's values and creating lasting memories for all who attended.

Jamboree-School Fete
An Expo Of Talent, Fun And Imagination Unleashed !

The Jambooree School Fete is one of the most anticipated events at Lawrence and Mayo Public School, bringing together students, teachers, and the community in a spectacular celebration of talent, creativity, and joy. This vibrant event showcases the diverse abilities of students across various forms of art, including dance, music, and performances, providing a platform for them to express their passions and skills. From energetic dance performances to soulful musical acts, every corner of the fete radiates enthusiasm and excitement.

The fete also offers a wide array of recreational activities, ensuring that there's something for everyone. Visitors can immerse themselves in games, interactive stalls, and competitions that are not only fun but also designed to engage people of all ages. Whether it's trying your luck at the lucky draw or participating in the many challenges, the day is filled with opportunities for laughter and enjoyment.

No celebration is complete without food, and The Jambooree does not disappoint. With an assortment of delicious treats, snacks, and beverages, the food stalls add to the festive atmosphere, offering something to satisfy every craving. The combination of great food, lively entertainment, and engaging activities makes the Jambooree a memorable experience for all.

Ultimately, the Jambooree is more than just a school event—it's a reflection of the vibrant spirit of the school, showcasing the hard work, talent, and creativity of students while also fostering a sense of community and togetherness. It's a day filled with laughter, fun, and cherished memories that continue to strengthen the bond between the school, its students, and their families.

Annual Sports Week
"Shaping Champions: The Spirit of Sports at LAMPS"

Sports are a cornerstone of Lawrence and Mayo Public School, reflecting its commitment to holistic development. The school believes that physical activity is essential for fostering discipline, teamwork, and resilience among students. By integrating sports with academics, LAMPS ensures students learn life skills while staying active and healthy.

With excellent facilities and dedicated coaches, the school provides an environment where young athletes can thrive. Regular inter-house competitions, tournaments, and sports days inspire students to challenge themselves and aim higher. These events not only nurture talent but also instill a competitive spirit and a sense of camaraderie among participants.

The achievements of LAMPS students in various sports are a testament to the school's emphasis on excellence. By encouraging participation and celebrating every success, the school shapes individuals who are not only physically fit but also confident, determined, and ready to take on the world.

Lawrence and Mayo Public School Exhibition : A Showcase of Innovation

The annual exhibition at Lawrence and Mayo Public School was a vibrant display of knowledge and creativity, featuring over 400 projects across Science, Social Science, Mathematics, and Literature. Inaugurated by Divisional Commissioner Rajendra Singh Shekhawat, the event highlighted students' critical thinking and problem-solving skills.

Key attractions included a model of Ram Setu, an immersive planetarium, and engaging role-play performances. The exhibition captivated visitors with innovative working models and hidden historical insights, making learning interactive and exciting. This celebration of teamwork and exploration reaffirmed the school's commitment to holistic education and experiential learning.

Independence Day & Republic Day Celebrations at Lawrence and Mayo Public School

At Lawrence and Mayo Public School, we celebrate Independence Day (15th August) and Republic Day (26th January) with immense enthusiasm and patriotism. These occasions unite us in honoring the spirit of freedom, democracy, and national pride.

The celebrations begin with the hoisting of the national flag, followed by the National Anthem, filling the atmosphere with pride and reverence. Students showcase their love for the country through march pasts, cultural performances, patriotic songs, dances, skits, and speeches, reflecting India's rich heritage and values. Inspiring words from our Principal and teachers remind us of our duty to uphold unity, integrity, and progress.

But these celebrations are more than just ceremonies—they are a tribute to the sacrifices, struggles, and dreams that built our nation. As the tricolor unfurls, our hearts swell with pride, and voices unite in patriotic songs, echoing the spirit of freedom and democracy. Each performance, each word spoken, and each step taken in the march past reflects our deep respect for the motherland. It is in these moments that we realize—we are not just students of a school; we are the future of India, carrying forward the legacy of those who gave us this freedom and the responsibility to shape a brighter tomorrow.

Jai Hind !

Hearts in Community Service

Lawrence And Mayo Public School is deeply committed to social responsibility. This year, students organized a Plantation Drive on Kargil Vijay Diwas, plant donation, contributing to a greener environment, and the distribution of sanitary pads to women and girls in slum areas, helping them maintain hygiene and took part in events like the NCC and Sahodya Camps. Additionally, personal hygiene kits were provided to children from underprivileged backgrounds who lack awareness of basic hygiene practices. Books were also donated to the orphanage. Students also have taken part in cleaning the surroundings near the school, nurturing a sense of responsibility and cleanliness. Through these efforts, our students not only contribute to society but also learn the value of service and compassion.

Educator's Edge

Spotlight Conversations

As Lawrence And Mayo is celebrating it's pearl anniversary in the field of education and to make a strong building we need strong pillars too.

Here we have one of the strongest pillar of this organization who spent their precious 21 years to shape the bright future generation.

Ms. Arpita Das(TGT) English

1. How long have you been a part of this school ? What was the atmosphere like when you first started ?

Since 21 years. Yes nostalgic feeling.That time we had very few students, friendly atmosphere. Everything was really good.

2. Over the years, what significant changes have you observed in the school ?

If I compare earlier there was a less chance to communicate with the teachers but now we are bridging the gap by having digital classroom, smart class, language Lab , scouts and guides , NCC etc

3. You've always had a strong bond with students. In your opinion, what is the most important quality agood teacher should possess ?

Must be enthusiastic about both the subject they teach and about act of teaching itself.Being able explain complex concepts clearly. Should have good communication skills,must be patient or we can say a good listener.

4. What do you think have been the most important changes in education, and how have they impacted students ?

Education through digital tools,smartboards, online resources.Nowadays they have vast access to information and learning materials beyond textbooks. Digital tools make lessons more lively through videos and interactive quizzes.

5. You've taught multiple generations of students. How do you feel today's generation differs from previous ones ?

Today's generations have grown up with smart phone, social media and internet. They are the primary mode of communication and moral values if course,we have to deal with them accordingly as lack of patience ,peer pressure are being experienced by today's generation

6. What advice would you give to new teachers, especially those looking to build a long and dedicated career in teaching ?

Be a good listener and love your job only that thing will inspire you to achieve the heights of success.

Thank you so much for your insightful thoughts and definitely it will leave a long lasting impact on students as well as teachers.

Some Interesting Mathematical Facts

1. Every odd number contains a letter 'E' in it.

2. Forty is the only number with the letters arranged alphabetically .

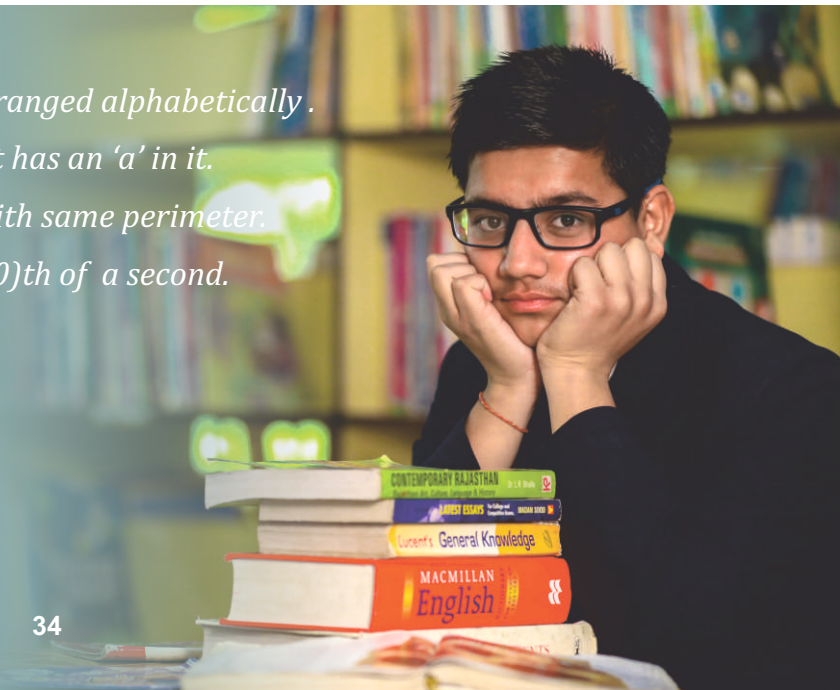

3.1000 is the only number from 0 to 1000 that has an 'a' in it.

4. A circle has the largest area of any shape with same perimeter.

5. A 'Jiffy' is a unit of time which means (1/100)th of a second.

"Learning Reimagined"

In classrooms of the future bright,
A new teacher emerges in sight.
With AI's guiding light, it assists and aids,
And helps students learn with gentle shades.

With personalized learning plans so fine,
It helps young minds grow and shine.
Teachers too, with gratitude, do say,
"This technological aid has made our teaching day.

But as we welcome this technological guest,
Let's not forget the human touch we love best.
For empathy and kindness, a machine can't replace,
The heart and soul of a teacher's gentle face.

So let's strike a balance, a harmony so true,
Between technology's aid and human teaching anew.
For in this blend of old and new, we'll find
A future of learning that's truly one of a kind.

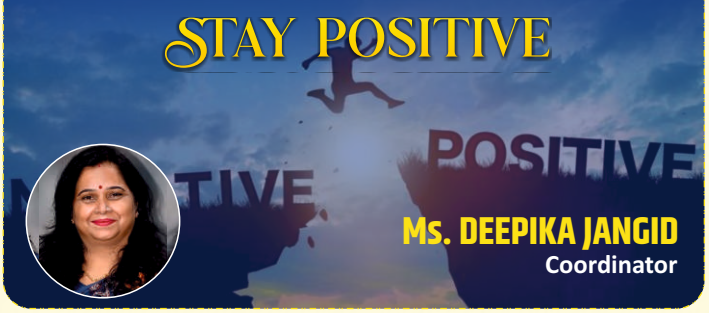

With technology and teachers, hand in hand,
We'll navigate the future of this educational land.
Where AI and heart intertwined to create a beautiful sight,
A future of learning that shines with delight!

"Positive Attitude"

Positive attitude can do wonders for you. A person with positive attitude cannot only face the world but also win it. A positive attitude gives you a right approach to do things.
" When you believe you can, then you can"
If you believe in something, you have faith in yourself, courage to face the world, all these things, and a positive attitude can make you achieve whatever you want in life. Positively working towards things can change a person destiny. What miracles can't do, positive attitude can do for you.
The person with a positive attitude can change good things to bad. There is saying "Whatever happens, Happens for good" This is the kind of thinking a positive person has.
When people are good and positive towards others, they are treated in the same manner as they treated people. It creates an environment of positivity and happiness. At last, I would conclude as

Ms. DEEPIKA JANGID

गीता को पढ़ने की आवश्यकता क्यों –

सर्वो पनिषदो गावो दोग्धा गोपाल नंदनः
पार्थो वत्सः सुधीर् भोक्ता दुग्धम् गीतामृतमं महत ।।

सारे उपनिषद् गाय के सामन हैं और इसको दुहने वाले गोपाल नंदन श्री कृष्ण है और गीता अमृत रूपी दुग्ध है उसको पाने या भोगने का सौभाग्य अर्जुन रूपी हम सब जीवों को मिला है।

मनुष्य शरीर पाँच तत्वों से बना है पर यह पाँच तत्व हमें प्रकृति से मिले हैं और आत्मा हमें परमात्मा से मिली है इन तत्वों के प्रकृति से मिलने के कारण इनमें गुण दोष आना स्वाभाविक है इसी कारण मनुष्य मे भी गुण या दोष आना स्वाभाविक है पर भगवद् गीता जो की कृष्ण जी के मुख से निकली हुई अमृत रूपी वाणी है जो यह हमें जीवन में अच्छी एवं बुरी बातों से अवगत कराती है और हमारे विवेक को जाग्रत करती है तथा जीवन में उदासी या हताश हो जाने पर हमें आशा रूपी किरण प्रदान करती है इसलिए निराशा से आशा की ओर ले जाने वाले इस भगवद् रूप गीता ग्रंथ को ज़रूर से पढ़ना चाहिए।

'मनुष्य' शब्द मन से बना है और भगवद् गीता हमारे मन को सुंदर बनाने का कार्य करती है मन सुंदर होगा तो जीवन भी सुंदर हो जाएगा तथा हमारी भक्ति और कर्म दोनों ही अंतर मन से शुद्ध होंगे तो हमें ठाकुर जी की शरणागति अवश्य मिलेगी और जिसे ठाकुर जी का प्रेम एवं शरणागति मिल जाती है उसका जीवन से उद्धार हो जाता है अर्थात् मनुष्य जीवन सफल हो जाता है इसीलिए हर व्यक्ति को भगवद् गीता को जरूर पढ़ना चाहिए एवं उसका अनुकरण करना चाहिए ।

सुधा शर्मा
PGT Hindi

संपूर्ण चिकित्सा - हँसी

हँसी अपने आप में एक सम्पूर्ण व्यायाम है। यह शरीर के सभी अंगो को फ़ायदा देती है। हँसने के लिए अलग से समय निकालने की आवश्यकता नहीं है। दूसरों की परेशानी पर नहीं बल्कि अपने जीवन के आनंद पर हँसे । सुबह-सुबह की हँसी आपकी दिन भर के लिए प्रसन्न रखती है। इससे शरीर में ऑक्सीजन का संचार बढ़ता है। हँसी निराशा, कुंठा को दूर कर तनाव मुक्त बनाती है और एकाग्रता बढ़ाती है। हाई ब्लड प्रेशर एवं हृदय रोग से पीड़ित व्यक्ति को हँसने से काफी लाभ होता है साथ ही प्रतिरोधी क्षमता मज़बूत होती है। नकारात्मक भावों का नाश होता है। हँसने से फेफड़े मज़बूत होते हैं। दमा जैसे रोगों में आराम मिलता है। हँसी शरीर के सभी अवयवों की मालिश कर देती है। हँसने से मनुष्य के व्यवहार में निश्चित तौर पर सुधार आता है। इन बातों के साथ यह ध्यान रखना भी ज़रूरी है कि केवल हँस लेने से ही सारी बीमारीयाँ दूर नहीं हो जायगी। इससे हमें मदद अवश्य मिलेगी। खान-पान का संयम एवं अन्य नियमों का पालन भी जरूरी है लेकिन खुलकर हँसने से जीवन की नीरसता दूर हो सकती है। जीवन में चाहे जितनी भी विपत्तियाँ या मुश्किलें आ जाएँ पर आदमी को खुशमिज़ाजी का गुण नहीं छोड़ना चाहिए।

एक खिला हुआ पुष्प हमें प्रसन्न रहने और जीवन को जीनें का सन्देश देता है।

हमेशा हँसते रहिए और हँसाते रहिए।

सोनल दाधीच
PGT Hindi

The Currency of the Future: Financial Literacy

In today's rapidly evolving world, the traditional concept of currency is undergoing a significant transformation. While cash and digital transactions still play vital roles, a new form of currency is emerging – financial literacy. This invaluable asset empowers individuals to make informed decisions about their money, navigate the complexities of the modern economy, and build a secure financial future.

Just as we learn language and mathematics, financial literacy is a fundamental skill that equips us for life. It encompasses a wide range of knowledge, including budgeting, saving, investing, understanding credit, and recognizing financial scams. By acquiring these skills, students can:

- Become responsible consumers: Make informed choices about purchases, understand the impact of advertising, and avoid impulsive spending.
- Develop sound saving habits: Learn the importance of setting financial goals, creating a budget, and consistently saving for the future, whether it's for college, a dream vacation, or a down payment on a home.
- Understand the power of investing: Explore different investment options, such as stocks, bonds, and mutual funds, and learn how to grow their wealth over time.
- Manage debt effectively: Understand the implications of borrowing money, use credit responsibly, and avoid falling into debt traps.
- Recognize and avoid financial scams: Learn to identify and protect themselves from common scams, such as phishing, identity theft, and fraudulent investment schemes.

Ms. Priyanka Mohan
PGT Economics

Artificial Intelligence (AI): Revolutionizing Human Life

Artificial Intelligence (AI) enables machines to mimic human thought processes, performing tasks that typically require human intelligence. With AI, machines can learn, reason, solve problems, and think critically. Its rapid evolution is transforming the technological landscape, poised to revolutionize human life and potentially resolve pressing global issues.

Our life in this modern age depends largely on computers. It is almost impossible to think about life without computers. We need computers in everything that we use in our daily lives. Artificial intelligence (AI) is poised to revolutionize numerous industries, transforming the fabric of our future. Its vast applications span multiple sectors, including: Military, Industrial, Automobiles, Health, Education, Marketing, Agriculture, Banking etc.

Here are some examples of artificial intelligence (AI):

Virtual Assistants(Siri (Apple), Alexa (Amazon), Google Assistant (Google),Facial recognition feature,Google Photos,Self-driving cars,Chatbots ,Google Translate, Recommendation systems (e.g., Netflix, Amazon), Robots etc.

Artificial Intelligence is not only a powerful and transformative technology but also an intriguing and versatile field with many surprising and entertaining aspects.

- *Sophia: Sophia: A Trailblazing Robot Citizen By Saudi Arabia*
- *AI's Growing Presence in Business*
- *Multimodal (text, images, and speech) AI Capabilities*
- *The AI Software Market Is Set To Hit $100 Billion By 2025*
- *AI Is Trying To Read Our Emotions*
- *AI Creates Art That Makes You Think*
- *AI Heats Up The Automotive Industry*
- *I Is Creating Jobs, Not Stealing*
- *AI Could Reshape The Global Economy*
- *AI Can See The Earthquake Coming*
- *The First Ever AI Chatbot: Eliza*
- *AI Is Now Assisting With Surgery*

AI is doing a lot of good and will continue to provide many benefits for our modern world, but along with the good, there will inevitably be negative consequences like Job Displacement, Limited Creativity, Absence of Emotional Range, Ethical Dilemmas, Promoting Laziness, Data Security Risks, Lack of Transparency, Dependency etc.

AI's benefits are undeniable. It promises to revolutionize industries, improve daily life, and create new job opportunities. AI continues to evolve, its possibilities become limitless. However, it is crucial that we ensure this technology remains beneficial and aligns with human values.

Ms. SHILPA BANSAL
PGT Computer Science & Informatics Practices

Words

Words are often referred to as the weapons that can change the world through their enormous potential of influencing people. They can bring happiness and confidence but even sorrow and demotivation. The weapon of words is indeed the most powerful one and the most onerous to handle. We often fail to apprehend this power and use it thoughtlessly by stabbing someone with them.

Believe me , they even have the potential of killing someone from within, but also on the other hand can give an entirely new prospective on life. Recklessly throwing words of contempt and hatred affects our character and drown us into the ocean of negativity.

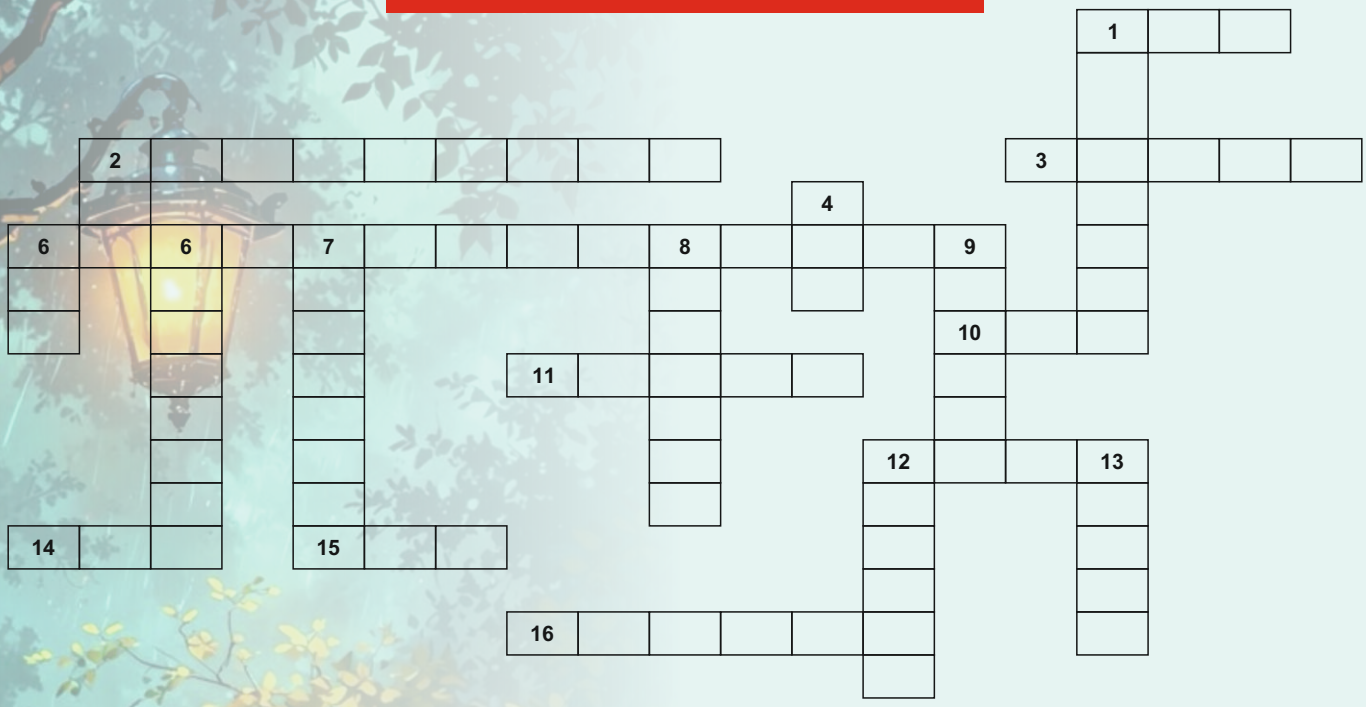

Practically, even if our words cannot bring a change in the world, they can atleast be used to improve ourselves. The essence of true joy lies in appreciation and spreading smiles.Words of gratitude and kindness bring back to us the felicity lost with the innocence of a child.

So, always be sure to use your words for the betterment of yourselves and others because what you give is what you get back.

ANSWER

The Rhythm of Expression: The Importance of Language in Life

Language is the lifeblood of communication, a tool that connects individuals and communities, shaping our understanding of the world and one another. As a language teacher, I have observed how deeply dependent we are on each other's feedback when we create or express something. Language bridges this gap, allowing us to share thoughts, emotions, and ideas.

The origins of language remain a mystery, but its development has been a marvel of human evolution. It's not just humans who communicate—animals and nature have their unique languages too. Birds chirp to signal danger, whales sing to find mates, and even the rustling of leaves in the wind conveys the whispers of nature. Each form of communication has its rhythm, an unspoken harmony that unites all living beings.

Among the myriad languages spoken worldwide, English stands out as the most versatile. It serves as a bridge across diverse cultures and geographies, enabling people from different corners of the globe to connect. Its adaptability and universal appeal have made it a medium for education, business, and diplomacy.

Imagine a world without words—how dull and lifeless it would be! Without language, laughter, tears, and even anger would lose their depth. Each emotion has its own language, from the hearty laugh that brightens a room to the silent tears that speak volumes. Words give meaning to these emotions, making them relatable and understood.

Language is not just about words; it is about the rhythm of expression. It is the melody of human interaction, a dance of sounds and gestures that bring life to our thoughts. Whether through spoken words, written text, or unspoken gestures, language is the thread that weaves the fabric of our lives.

In essence, language is a gift, a tool of infinite possibilities. It shapes our identities, fosters connections, and creates a shared human experience. Let us cherish this rhythm of expression and celebrate the diversity of languages that enrich our world.

Ms. SHARDA GOUR
PGT English

Exploring the Wonders of Physics: The Science of the Universe

Physics is the fundamental science that explains how the universe works, from the smallest particles to the largest galaxies. It uncovers the laws of motion, energy, light, matter, and forces that shape our world. Physics not only helps us understand how things work but also drives technological innovations that revolutionize our lives.

The Fascinating World of Forces

At the heart of physics is the study of forces, such as gravity, which pulls objects toward Earth, and electromagnetic force, which governs interactions between charged particles, powering electricity and magnetism.

Physics in Technology and Innovation

Physics plays a crucial role in shaping technology. For example: Electricity: The study of electromagnetism led to electric circuits that power devices like smartphones.

Computers & Smartphones: Quantum mechanics enabled the creation of faster microchips. Space Exploration: Physics principles made space missions possible, from landing on the Moon to studying distant galaxies. Physics also addresses global challenges like renewable energy, climate change, and healthcare.

The Future of Physics: Endless Possibilities

Physics continues to explore new frontiers, such as unifying quantum mechanics and general relativity, and solving the mysteries of dark matter and black holes. In conclusion, physics helps us understand the universe's fundamental workings. It invites curiosity, as Albert Einstein said, "The important thing is not to stop questioning."

Interesting fact about the numbers 0 to 9

Digits 0 to 9 are known as Arabic Numerals.
Have you ever asked the question, Why 1 is 'one',2 is 'two',3 is 'three'.....
What is the logic that exists in the Arabic Algorithms?
The Concept behind it is

'ANGLES'

Look at these Algorithms written in their primitive form and check it out !

Most Interesting of All .....

Zero Angle

Noise Pollution: A Silent Threat to Our Environment

What is Noise Pollution?

Noise pollution is the presence of loud or excessive noise in the environment, which can disturb human activities and harm health. The World Health Organization (WHO) recommends that environmental noise levels should not exceed 55 decibels (dB) during the day and 40 dB at night to ensure good health and well-being. However, these limits are often exceeded in urban areas due to heavy traffic, industrial activities, and other human-made sources.

In India, the Ministry of Environment, Forest and Climate Change has set legal limits for noise pollution under the Noise Pollution (Regulation and Control) Rules, 2000. For residential areas, the permissible noise level is 55 dB during the day and 45 dB at night. For industrial areas, it is 75 dB during the day and 70 dB at night. When these limits are violated, it leads to various health and environmental issues.

Causes of Noise Pollution

Noise pollution has multiple sources, both natural and man-made. Some common causes include :

1. Traffic Noise : Vehicles such as cars, buses, trains, and airplanes are major contributors to noise pollution, especially in urban areas.
2. Industrial Noise : Factories and industries use heavy machinery that generates loud noise, affecting nearby residents.
3. Construction Activities: Activities like building construction, road repairs, and drilling produce significant noise pollution.
4. Social Events : Loudspeakers, fireworks, and music at social gatherings often cause temporary noise pollution.
5. Household Sources: Appliances such as televisions, washing machines, and music systems can also contribute to noise pollution in residential areas.

Effects of Noise Pollution

Noise pollution has severe consequences for both humans and the environment. Some of its harmful effects include :

1. Health Issues: Prolonged exposure to loud noise can lead to hearing loss, high blood pressure, stress, and sleep disturbances.
2. Cognitive Impact: Excessive noise disrupts concentration and learning, particularly in children, affecting their academic performance.
3. Wildlife Impact: Animals rely on sound for communication and navigation. Noise pollution disrupts their natural behavior, often causing them to migrate or face extinction.
4. Quality of Life: Constant noise reduces the quality of life, making it difficult for individuals to relax or enjoy leisure activities.

Ways to Prevent Noise Pollution

Both individuals and society can take steps to minimize noise pollution.

For Students:

1. Avoid playing loud music or using headphones at high volume.
2. Participate in awareness campaigns to educate others about noise pollution.
3. Plant trees in your surroundings, as they act as natural sound barriers.

Government Initiatives to Control Noise Pollution

The Indian government has implemented several measures to combat noise pollution. Some of these include:

1. Noise Pollution (Regulation and Control) Rules, 2000: These rules set limits on permissible noise levels and provide penalties for violations.
2. Central Pollution Control Board (CPCB): The CPCB monitors noise levels across the country and enforces regulations.

Address: Parivesh Bhawan, East Arjun Nagar, Delhi - 110032

3. Noise Mapping Projects: Several cities, like Delhi and Mumbai, have initiated noise mapping projects to identify high-noise areas.

4. Silent Zones: Establishing silent zones around schools, hospitals, and residential areas where noise levels must be strictly maintained. For more information, citizens can also contact their local State Pollution Control Boards (SPCBs).

Conclusion

Noise pollution is a growing problem that demands immediate attention. It not only affects human health but also disrupts the ecosystem. As students, we must act responsibly by creating awareness and adopting noise reducing habits. Society must support government initiatives and adhere to noise control regulations. Together, we can work towards creating a quieter, healthier, and more harmonious environment for ourselves and future generations.

Let us remember that every small effort counts in making a big difference. Silence, after all, is not just golden—it is essential for a balanced and peaceful life.

Mental Health Awarness

Mental health awareness is something that has to discussed openly now. It has been observed that people struggling from various issues like depression and anxiety don't open up about the issue concerning their mental health because of the stigmas attached to it. Hence, they don't get proper treatment and it effects their overall lives and it also results in increasing number of suicide cases. In my opinion, now its high time we should spread the awareness in this society regarding mental health. There are still some sections of society that don't consider mental illness as a major issue. As a parent, teacher, friend or sibling we must help our loved ones battling from mental health issues by giving them acceptance and showing them deep understanding. This way people will come up and share their battles regarding mental health openly. Schools & Colleges must teach their students to cope with various issues like peer pressure, anxiety and competition so that they know how to deal with various issues regarding their professional & personal lives. Taking professional help from psychologists & psychiatrists should be considered as a normal practice in our society to lead a healthy life. Generally, the fear of being labelled as mentally ill and the resultant discrimination often dissuade people from seeking treatment. The cost factor and protracted time involved in the therapy also prevent people from seeking help. Learning more about mental health and spreading awareness about it can definitely bring drastic changes in our society. People are now more concerned regarding their mental health but still we have miles to go to get better results in this subject.

JOURNEY OF GROWTH

Since 1994.....
'Each word they speak,
A seed they sow.
In curious hearts , they
help us grow.
Through lessons shared ,
both OLD and NEW.
They build a world for
ME AND YOU'

30 GLORIOUS YEARS AND MORE TO COME.....
This year marks a significant milestone in the history of

LAWRENCE AND MAYO PUBLIC SCHOOL

Celebrating 30 years of excellence in Education, Growth and Community Building.

THE FOUNDATION OF A DREAM

Three decades ago 'MAN WITH A GOLDEN HEART 'envisioned a school that would not only impart knowledge but also nurture values, creativity and leadership among young minds.
ER. PRADEEP SINGH GOUR SIR opened school doors with a handful of students and teachers.
A dream and an unyielding determination to make a difference.
Over the years the school has grown from strength to strength

* Academic Excellence
* Achievements
* Infrastructure and
* Became a hub of holistic development

At LAWRENCE AND MAYO PUBLIC SCHOOL education goes beyond textbooks where We,

* Foster knowledge and values
* Encourage creativity and innovation
* Promote sportsmanship and health
* Nurture global citizen

VISION OF EMPOWERING YOUNG MINDS
LAWRENCE AND MAYO PUBLIC SCHOOL

Is not only a school BUT a testament to the Power of Vision , Perseverance and Unity.

Ms. AMRITA JOHN

The Creative Lens Painted By Lawrenites

ALUMNI SPOTLIGHT

Interview with Alumni

Introduction –
Hey folks my name is ***Aryan Jain, from the batch of 2017*** *and I was a student of Lawrence & Mayo from nursery till 12th. I am currently working as a Risk Analyst in*

1. ***What is your fondest memory from your time at Lawrence and Mayo Public School ?***
   I have many cherished memories. I recall sharing a fresh "aloo patties" with five classmates—nothing has matched its taste since. There was a time we were sent to the Principal's office for flying paper airplanes out the window— punishment, yet a fun memory. Performing as an anchor at the annual function was also special; it was one of my first time on stage, overcoming stage fright. These are just a few of the countless moments I look back on fondly.
2. ***How did your experiences at LAMPS shape your personal and professional development ?***
   LAMPS gifted me lifelong friends and teachers. Interacting with diverse classmates helped me understand the world better, and teachers shared invaluable wisdom that shaped me. These experiences have contributed significantly to who I am today.
3. ***Can you share a specific instance where a teacher or mentor at the school made a significant impact on your life?***
   My first science project—a hydraulic bridge—was built with friends under the guidance of Ashok sir and Madhu ma'am. Their support during summer classes made the project a success and sparked a passion for engineering. Learning from Sonal ma'am also ignited my love for Hindi literature.
4. ***What extracurricular activities or projects were you involved in, and how did they contribute to your success?***
   I participated in science projects that led me toward engineering and performed in school plays, fueling a passion I still pursue. Exploring various activities helped me discover what I truly enjoyed.
5. ***In what ways did you contribute to the school community during your time as a student?***
   Though I was an introvert, I helped friends in academics, sports, and labs. We supported the school in inter-school tournaments and helped organize the annual day celebrations.
6. ***How do you believe the values instilled in you at LAMPS have influenced your career choices?***
   LAMPS instilled patience and a deep understanding of fundamental concepts, making me fearless in choosing any subject. Social interactions helped develop essential skills for making personal and professional decisions.
7. ***What advice would you give current students based on your experiences after graduating ?***
   Don't treat school as just a place for taking notes. Participate in activities, go to school, meet friends, and embrace new experiences. These memories will shape your identity, boost your confidence, and help you make career choices.
8. ***How do you stay connected to the school now, and in what ways do you contribute to its growth and success ?***
   Currently, alumni meets keep me informed about the school. Inviting alumni to events is great, but year-round connectivity through social platforms could strengthen ties further

Forever LAMPS

Congratulations to Lawrence and Mayo Public School on completing 30 years of excellence. I'm Akshat Kulshrestha, and having studied at the school from 2008 to 2023, I've had the privilege of seeing 15 of those 30 years firsthand. Over that time, I've watched the school consistently grow and improve. The dedication of both the faculty and administrative staff in supporting students—whether in their daily lives or in preparing for their futures—has always stood out to me. I'm grateful for the education and opportunities I received.

Thank you, Lawrence and Mayo.

Akshat Kulshrestha (Batch 2022-23)

Dear Lawrence and Mayo Public School, As a Lead Data Engineer at ZS Associates, I write to express my profound gratitude for the education I received at your esteemed institution. The foundation you provided – from academic rigor to essential life skills – has been instrumental in my career success. Your emphasis on critical thinking, perseverance, and ethical conduct continues to guide me in my professional journey. The problem-solving abilities and teamwork skills I developed under your guidance are invaluable in my current role. Thank you for nurturing my potential and equipping me with the tools to thrive in the world of technology and data.

Atul Sharma (Batch 2015-16)

I look back on my time there with immense gratitude. The school provided a strong foundation not only academically but also in shaping character and lifelong values. It remains a place that fosters growth, community, and excellence.

Dr. Krati Pareek

MD Pediatrician, Nims jaipur (Batch 2013-14)

I was a part of Lawrence & Mayo Family for 12 years and still connected as an alumnus. The strong foundation in terms of curricular and co curricular activities had been a great support in my career till now. The skill of public speaking achieved through anchoring at annual fest is a key example of how these things help in holistic development. Here's to 30 glorious years of this family and many more years to come.

Manu Chittora (Batch 2017-17)

"Lawrence and Mayo Public School has always been a special place for me. It sparked my interest in academics and gave me the confidence to try new things, whether it was hosting events, dancing at annual functions, or debating. The teachers here made me love learning, and the experiences helped shape who I am today. My advice to students would be to enjoy every moment, embrace studies without seeing them as a burden, and participate in everything you can. These moments won't come again. I'm still connected with some friends and teachers, and I'm proud to be a part of this school's legacy."

Kumkum Vaishnav (Batch 2016-17)

I am Adit Nandwana, currently at the Chartered Accountancy Final level and pursuing my Articleship at PwC India.

My journey with LAMPS began in class 4, and for nearly a decade, it became the foundation of my growth. I still vividly remember my first day—nervous and unsure—but when I left, I carried with me countless memories and lifelong friendships. I will always be deeply grateful to the teachers for their pivotal role in shaping me into the person I am today. They instilled in me the confidence to face life's challenges and taught me the importance of enjoying every moment. LAMPS provided me with countless opportunities beyond academics, from dance, skits, and debates to painting, anchoring, and attending enriching and fun-filled seminars. The teachers always put their hearts into making the classes engaging, interactive, and a truly enriching experience. Over the years, LAMPS became much more than just a school—it became my second home. Even though it has been over two years since I bid farewell, the memories still bring a smile to my face. The laughter, the lessons, and thefriendships will remain with me forever.

As the saying goes, "School is a place where you enter crying and leave crying."

Once a Lawrenite, always a Lawrenite!

Proudly yours,

Adit Nandwana (Batch 2013-14)

FROM BLEEDING PEN

Rape, a gross and violent act, is usually dehumanised to be seen as something an "evil-person withinvisible-horns-and-a-malicious-glint-in-their-eyes" does. That is the crux of the true horror of such violence. Since it is not a spontaneous combustion of randomly generated hatred, but a gradual burst of emotions, the seeds of which are sown very early on in childhood, not only by our society, but also our own friends and family.

The RG Kar case is an example of how even educated institutions cannot escape the grip of systematic patriarchy and entitlement. The reason for this is all of us, collectively as a society. The reason why India is so close to being known as the rape capital of the world is because of the the lack of a culture which calls these normal people out about their casual misogynistic remarks and jokes, and "harmless" catcalling, until it becomes something monstrous and sinister. It is because of our failure to listen to those we love and take them seriously when it matters.

The epidemic of sexual violence in India is not just the result of isolated incidents committed by individuals branded as inherently "evil," but a reflection of a deeply ingrained societal failure. It begins with the normalization of casual misogyny and sexism in our homes, schools, and workplaces. The RG Kar case serves as a somber reminder that no institution, no matter how educated or progressive, is immune to the grip of patriarchy unless we actively dismantle it.

For people who say that it is impossible, even getting rid of colonialism once seemed impossible, but here we are after 77 years of our independence. As Nelson Mandela once said, "It always seems impossible, until it is done."

As a society, we need to listen to the voices that are often silenced, take accountability for our role in perpetuating harmful narratives, and strive to raise a generation of men and women that value respect, empathy, and equality. It is only through acknowledging our collective responsibility that we can hope for change.

A Home of Happiness for Parents and Students

As parents, nothing matters more to us than the happiness, safety, and success of our children. At Lawrence and Mayo Public School, we have found a place where our children are not only educated but also nurtured with care and encouragement.

The school's commitment to excellence is evident in its state-of-the-art facilities, which provide an ideal environment for learning and growth. From well-equipped classrooms and advanced laboratories to a rich library and modern sports infrastructure, every aspect is designed to support our children's holistic development.

More than just infrastructure, what truly sets this school apart is its dedicated faculty and staff. The personalized attention given to each student ensures that our children are guided not just academically but also emotionally and socially. The open communication between teachers and parents reassures us that we are actively involved in our child's journey.

Seeing our children grow into confident, capable, and compassionate individuals is the greatest reward. The warmth, support, and excellence at Lawrence and Mayo Public School make it not just an institution but a home of happiness for both students and parents.

ये कैसा समय यह कैसी सदी है
हर तरफ त्रासदी ही त्रासदी है
कलुष भरे इस सृष्टि में
नीरवता भरी है दृष्टि में
उद्भांत—सा हुआ है जन
ये कैसा समय यह कैसी सदी है
हर तरफ त्रासदी ही त्रासदी है
विफलताओं की लपेटे हुए
आकुलता को समेटे हुए
विक्षिप्त—सा हुआ है मन
आक्रोश से घिरा है जन
ये कैसा समय ये कैसी सदी है
हर तरफ त्रासदी ही त्रासदी है।।
अंतस्तल में छुपा के पीर
नयनों से बह रहे नीर
पुष्पों का हुआ परिमल अंत
विश्व में फैला दुख अनंत
ये कैसा समय ये कैसी सदी है
हर तरफ त्रासदी ही त्रासदी है।।

KINDERGARTEN MOMS UNITE

Mothers play a vital role in a child's early learning journey, and to celebrate this special bond, our kindergarten hosted a Mother's Activity Day—a joyful event filled with love, laughter, and learning. The event provided a wonderful opportunity for mothers to actively participate in their child's school experience, strengthening their connection while engaging in fun-filled activities.

From interactive storytelling and craft sessions to dance and games, every moment was designed to encourage creativity and bonding. Mothers and children enjoyed working together on art projects, singing rhymes, and playing interactive games that brought smiles to every face. The highlight of the event was a special "Mom & Me" activity, where mothers shared heartwarming moments with their little ones, making beautiful memoriess.

This event was not just about fun but also about reinforcing the importance of a mother's presence in a child's formative years. It was heartening to see the enthusiasm and love shared between mothers and children, making this day truly unforgettable.

GRANDPARENT'S DAY CELEBRATION 'SANSKAR'

A Heartwarming Tribute

Grandparents hold a special place in a child's heart, and to honor their love, wisdom, and guidance, the primary wing of our school hosted a Grandparents' Day Celebration filled with joy and nostalgia. The event was a beautiful tribute to the pillars of our families, bringing generations together for a day of fun, laughter, and heartfelt moments.

The celebration featured delightful performances by the students, including songs, dances, and skits that expressed their love and gratitude. Grandparents enthusiastically participated in interactive games, storytelling sessions, and traditional activities that brought back cherished memories. The highlight of the event was a special "Blessings Ceremony," where children expressed their love through heartfelt messages, handmade cards, and warm hugs.

It was a day filled with smiles, laughter, and emotional moments, reinforcing the invaluable role of grandparents in shaping young lives. Their presence made the event truly special, leaving everyone with memories to cherish forever.

"SCHOOL SONG"

We are the stars of Lawrence and Mayo
Shining the world with our wisdom & knowledge
We are the Lawrenites forever
Spreading the peace & happiness everywhere.
We are the Agni, Prithvi, Akash & Trishul
The strength of cosmos & virtues
We are the Leaders of future
Serving the nation, beholding its culture.
Together we work, Together we play
Together we hope and together we pray
Making our souls so sacred
With all love and no hatred.
We bow our heads in reverence
With our Alma Mater so true
We thank You God for everything
With our pure heart we sing to You.
We are the stars of Lawrence and Mayo
Shining the world with our wisdom & knowledge
We are the Lawrenites forever
Disciplined learners forever & ever-2
